

E-learning

Plastic Ocean

This e-learning is designed with the education guide from Plastic Oceans International. It hopes to encourage colleagues to join the “Plastic Free” campaign.

Web Design

Revamping the OER portal

This project is about revamping the university's Open Educational Resources (OER) website for better navigation and layout of information in order to enhance user experience.

User Experience

EV Energy

It is about designing an app to help the users finding the electric vehicles (EV) charging facilities easier and provide a centralized and user-friendly EV information sharing platform. It aims at promoting the adoption of EV.
